

**Macro Integration Services Public Statement Concerning COVID-19**

Macro Integration Services values the health and safety of our Associates and Customers above all else. As such, we are following the Centers for Disease Control and Prevention (CDC) [Interim Guidance for Business and Employers](#).

Internally, we are encouraging any employee to stay home if they exhibit any symptoms at all. Additionally, we are taking special care in handling packages and incoming shipments from suppliers or customers. Hand washing and limiting human contact are encouraged both inside and outside the workplace.

For our Customers, we plan no interruption in service. We understand that many of our QSR and retail customers may experience unusually high volume during this time of great uncertainty and Macro is committed to support them in the markets they serve. You may visit the Macro website for the most current information. Or, please reach out to your Macro sales representative if you have any specific concerns or special guidance for how to best maintain continuity of our service relationship.
